WG2_Project_leaders'_report_FSD_Marrakech2008_s

Background

1. ISO 24610-1 Feature structures - Part 1: Feature structure representation: 2006 (E) was published as an IS (International Standard) on 2006-04-15. It is copyrighted by the ISO CS and a copy is now available for purchase.
2. ISO 24610-2 Feature Structures - Part 2: Feature system declaration (FSD) was approved as an AWI and the proposed document as a WD on 2006-01-18. (ref. TC37-4 N245, N243)
3. As a WI of WG 1 (Convener: Nancy Ide), the project was headed by Kiyong Lee and Gerald Penn, assisted by Lou Burnard, the TEI Consortium liaison, and supported by the joint ISO-TEI editorial committee and the experts nominated by

the national members. (ref. TC37-4 N245)

4. Note that ISO Feature Structures - Part 2: FSD is also assumed to be a joint ISO-TEI project under the agreement between two organizations made on 2003 to revise the TEI Guidelines P4 and to produce a new ISO standard on feature structures.
5. The technical problem is that the TEI Guidelines P 5 has already been published which includes new chapters on FSR and FSD. (ref. TC37-4 N064 Charter for joint isotei activity.doc)

Original Target Dates for Submission

(ref. TC37-4 N245)

- as a CD 2006-11-30
- completing of WD by 2007-03-31
- as a DIS 2007-03-15
- as a FDIS 2007-08-30
- for publication 2008-02-20

ISO-TEI Joint Committee

(ref. TC37-4 N064)

- Editor: Kiyong Lee klee@korea.ac.kr

- Members:
 - Syd Bauman Syd_Bauman@brown.edu
 - Lou Burnard lou.burnard@oucs.ox.ac.uk
 - Eric de la Clergerie Eric.De-La-Clergerie@inria.fr
 - Tomaz Erjavec Tomaz.Erjavec@ijs.si
 - Ulrich Heid Ulrich.Heid@IMS.Uni-Stuttgart.de
 - Terry Langendoen langendt@U.Arizona.edu
 - Laurent Romary Laurent.Romary@loria.fr
 - Gary Simons Gary_Simons@sil.org

Past Meetings

1. 2006-01-19/21 TC 37/SC 4 WGs meetings were held in Jeju. (ref. N231)
2. 2006-07-05/06 TC 37/SC 4/WG 1 and WG 2 organized and held their WG editorial meetings at AFNOR, Paris.
3. 2006-08-xx TC 37 and SCs meetings in Beijing
4. WG meetings at Brandeis University near Boston on 2006-10-26/28 to discuss FSD and NP 24617-1 SemAF-time.
5. 2007-01-xx WG meetings at Tilburg University
6. 2007-05-xx WG meetings at AFNOR, Paris.

7. 2007-08-xx TC 37 and SCs meetings at
Brigham Young University, Provo

Basic Issues

1. Resetting the target dates.
2. Creating ONE new project on feature structures by combining Part 1 FSR and Part 2 FSD.
3. Re-establishing the liaison with the TEI Consortium.
